PROFILE

To obtain a frontend developer position where I can apply my skills in HTML, CSS, JavaScript, and React to create engaging and user-friendly web applications.

Seeking a challenging career opportunity and being a part of progressive organization that encourage me to expand knowledge alongside being conducive to enhancing the organization's success.

IT PROFICIENCY

Frontend Developer

04/2023-12/2023

Besant technologies

- Proficiency in HTML, CSS, and JavaScript: A strong grasp of these core technologies for creating and designing the front-end of websites. HTML for structuring content, CSS for styling, and JavaScript for interactivity.
- Familiar with React, Bootstrap, and Tailwindcss
- In-depth knowledge of React's core concepts, such as components, state management, props, and lifecycle methods, for developing robust application.
- Responsive Design: Ability to create responsive and mobile-friendly designs.
- Ability to use version control tools like Git and GitHub.
- Experience with responsive design and cross- browser compatibility

Projects

Personal Portfolio Website

- Developed a personal portfolio website using HTML, CSS, and JavaScript
- Showcased my skills, education, projects, and contact details
- Used simple css for layout and responsiveness
- Hosted the website on Netlify server
- Link: https://sheikhadnaan.netlify.app/

Personal Portfolio Website

- Created a todo list app using React and localStorage
- Implemented features like adding, deleting, editing, and filtering tasks
- Used React hooks for state management and custom components
- Applied CSS for styling and animations
